## ENVIRONMENTAL PACKAGING LABELING (DLgs nr. 116/20)

The Legislative Decree n. 116 dated 09/03/2020, introduces the obligation to label packaging by providing that, to facilitate the collection, reuse, recovery and recycling of packaging, as well as to give correct information to consumers, all packaging must be appropriately labeled. In order to comply with this legal obligation, we send you the information relating to the nature of the standard packaging used. For any other special packaging please contact us for more information about the recycling instructions [info@gemmecotti.com](mailto:info@gemmecotti.com) .

Material	Environmental coding	Material/Collection instructions
CARTON BOXES	PAP 20	CARTON/PAPER/CARDBOARD
PALLET	FOR 50	WOOD
FOIL + POLYURETHANE FOAM		 <p><b>DUNAPACK™</b></p> <p>Poliuretano avvolto in polietilene film    avvolto in polietilene film.    Protezione di ogni oggetto.</p> <p>It does not contain foaming agents other than water.    Non contiene espandenti diversi dall'acqua.</p> <p>In compliance with European Packaging Directive    "Essential Requirements" 94/62/EC and Disposability    European collection organizations.
